FORTBRAND SERVICES, INC., AND BEAM A/S ANNOUNCE THE PURCHASE OF ONE BEAM VX800 MULTI-TASKING AIRPORT SERVICE VEHICLE BY JOHN F. KENNEDY INTERNATIONAL AIRPORT (JFK)

Plainview, New York, September 2, 2011

Fortbrand Services, Inc., the exclusive North American distributor for Beam A/S, a Danish manufacturer of specialized, high performance airport sweepers, announces the purchase of one (1) model VX800 Multi-Task Airport Service Vehicle by the Port Authority of New York and New Jersey for use at John F. Kennedy International Airport (JFK).

The VX800 is a self-contained, one operator vehicle capable of performing a number of tasks, which are usually performed by several vehicles, typically required for the proper maintenance of airfield facilities. The working components are mounted on a U.S. manufactured chassis and are comprised of a heavy duty stainless steel hopper and water and detergent tanks. Primarily designed for runway rubber removal, the VX800 Multi-Task Airport Service Vehicle is also capable of performing glycol recovery, apron sweeping and scrubbing, runway sweeping, street sweeping and various liquid or debris pick-up through its full width suction nozzles and wander hose.

When required, the VX800 has a hot water system capable of delivering high pressure hot water through its spray bars or a hand wand.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also is a distributor for unique airfield maintenance equipment, including high-speed Vmmas snow removal vehicles, the multi-function Hagie GST 20 Sprayer and the Beam VX 800 Multi-Task Airport Service Vehicle.
