FORTBRAND SERVICES, INC., AND AL-JON MANUFACTURING LLC ANNOUNCE THE SALE OF TEN VAMMAS PSB 5500 MULTI-FUNCTION SNOW REMOVAL VEHICLES TO THE DALLAS/FORT WORTH INTERNATIONAL AIRPORT (DFW).

Plainview, New York, September 9, 2011

Fortbrand Services, Inc., the exclusive worldwide distributor of the Vammas snow removal product line, and Al-jon Manufacturing LLC, manufacturer of the Vammas snow removal product line, today announced the sale of ten Vammas PSB 5500 multi-function snow removal vehicles to the Dallas/Fort Worth International Airport Board for use at DFW.

The units will be delivered prior to the 2012-2013 winter season and will have the latest Vammas technology, including the P8400 flexible polyethylene moldboard plow and a 46" wafer broom.

Vammas PSB vehicles have revolutionized the method by which snow removal is accomplished on runways and taxiways at major North American airports. The reliability of Vammas PSB vehicles in clearing runways within predictable minimal time frames has resulted in aircraft arrival rate increases and substantial savings in delay costs to the airlines, as well as a reduction in operating, maintenance and human resource costs for airport operators.

With these deliveries, there will be a total of ninety-one (91) Vammas PSB 5500 and PSB 4500 high-speed plow, sweeper, blower vehicles delivered, or on order, at thirteen (13) major airports in North America.
