FORTBRAND SERVICES, INC., AND BEAM A/S ANNOUNCE THE DELIVERY OF ONE BEAM A9000 AIRPORT SERVICE VEHICLE TO BUFFALO NIAGARA INTERNATIONAL AIRPORT (BUF)

Plainview, New York, February 1, 2018

Fortbrand Services, Inc., the exclusive North American distributor for Beam A/S, a Danish manufacturer of specialized, high performance airport sweepers and glycol recovery vehicles, announces the delivery of one (1) Beam A9000 Airport Service Vehicle to the Niagara Frontier Transportation Authority for use at Buffalo Niagara International Airport (BUF).

The A9000 Airport Service Vehicle is a self-contained, one operator vehicle, capable of performing a number of tasks, which are usually performed by several vehicles, typically required for the proper maintenance of airfield facilities. The working components are mounted on a U.S. manufactured chassis and are comprised of a heavy duty, heated stainless steel hopper and water and detergent tanks. Primarily designed for runway rubber removal, the A9000 Airport Service Vehicle is also capable of performing glycol recovery, apron sweeping and scrubbing, runway sweeping, street sweeping and various liquid or debris pick-up through its full width suction nozzles and wander hose.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vmmas snow removal vehicles, the Beam multi-task airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher, the Prinoth SW4S all season snow removal and summer maintenance vehicle and the Prinoth Husky and Bison snow groomers.
