FORTBRAND SERVICES, INC., AND BEAM A/S ANNOUNCE THE ORDER OF ONE BEAM A9000 AIRPORT SERVICE VEHICLE BY BUFFALO NIAGARA INTERNATIONAL AIRPORT (BUF)

Plainview, New York, December 16, 2016

Fortbrand Services, Inc., the exclusive North American distributor for Beam A/S, a Danish manufacturer of specialized, high performance airport sweepers, announces the order of one (1) Beam A9000 Airport Service Vehicle by the Niagara Frontier Transportation Authority for use at Buffalo Niagara International Airport (BUF).

The A9000 is a self-contained, one operator vehicle capable of performing a number of tasks, which are usually performed by several vehicles, typically required for the proper maintenance of airfield facilities. The working components are mounted on a U.S. manufactured chassis and are comprised of a heavy duty, heated stainless steel hopper and water and detergent tanks. Primarily designed for runway rubber removal, the A9000 Airport Service Vehicle is also capable of performing glycol recovery, apron sweeping and scrubbing, runway sweeping, street sweeping and various liquid or debris pick-up through its full width suction nozzles and wander hose.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vmmas snow removal vehicles, the Hagie GST 20 multi-season airport vehicle, the Beam A9000 airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher and the Prinoth SW4S all season snow removal and summer maintenance vehicle.
